HEALTH AND SAFETY POLICY

PART ONE - GENERAL

1. GENERAL STATEMENT AND COMMITMENT

- 1.1 The aim of the statement is to ensure that all reasonably practicable steps are taken to ensure the health and safety of all persons including staff, pupils, contractors and any other person who may be affected by the school and the conduct of its activities.

Overall and final responsibility lies with the Headteacher.

- (a) The Governing Body has designated that David Hughes-Jones is the named governor or established a committee to have particular responsibility for matters of health and safety.
- (b) The annual risk assessment and safety audit process is led by the headteacher and findings are reported to the Governing Body and Chief Officer.
- (c) Termly Health and Safety reports are presented to the Governing Body to ensure monitoring of health and safety.

In particular,

- (a) to establish and maintain a safe and healthy environment throughout the school and for all school activities;
- (b) to establish and maintain safe working procedures among staff and pupils;
- (c) to make arrangements for ensuring safety (via the risk assessment process), to avoid risks to health in connection with the use, handling, storage and transport of articles and substances;
- (d) to ensure the provision of sufficient information, instruction and supervision to enable everyone to avoid hazards and contribute positively to their own health and safety training as and when required;
- (e) to maintain a safe and healthy place of work with safe access and egress;
- (f) to provide and maintain adequate welfare facilities.

1.2 Health and Safety Management

The school will ensure that a Health and Safety Management System is developed, implemented and monitored which will ensure the assessment of risk and the effective organisation, planning, monitoring and review of the preventative and protective measures necessary to control risk.

1.3 Coronavirus (COVID-19)

In line with Welsh Government Guidance, the school has undertaken a risk assessment prior to increased operations which should be read and adhered to in conjunction with this Policy. The assessment directly addresses risks associated with coronavirus (COVID-19), so that sensible measures can be put in place to control those risks for students and staff.

1.4 Planning

The school will identify and assess the risks from hazards associated with all its work activities, with the aim of eliminating and controlling the risks, so far as is reasonably practicable.

The school will, so far as is reasonably practicable, allocate sufficient resources to meet the requirements of this policy.

The school will set realistic short and long term objectives, decide priorities and establish adequate performance standards. It will also monitor and review such standards to ensure that they are being met and maintained.

1.5 Health and Safety Assistance

Without detracting from the primary responsibility of Governors and teaching staff for ensuring safe conditions of work and, in compliance with legislation, the school will provide on-site competent assistance in applying the provisions of health and safety law where it is necessary to assist management in that task.

The Council's LA Health and Safety Advisor, Mr L Dawkins, will also be available to provide competent assistance.

1.6 Co-operation and Consultation

This Health and Safety policy will only be effective if it actively involves the employees themselves. The school recognises the contribution that employees and pupils are able to make towards health and safety in their workplace and will operate and consult with employees and pupils as necessary.

The school will actively encourage and support consultation with Trade Unions, and other appointed safety representatives, to enable them to fulfil their statutory functions and will co-operate in the setting up of a Safety Committee or committees as required.

1.7 Co-ordination

Where the school shares premises with another department or employer, whether permanently or temporarily, arrangements and procedures shall be adopted to ensure that all concerned are able to comply with their statutory health and safety duties.

The school will ensure that arrangements are made to co-ordinate the activities of its own employees and those of outside agencies working on departmental premises, such as contractors, cleaning staff and maintenance personnel.

1.8 Information to Staff

This Health and Safety Policy and any Supplementary Guidance Documents, Codes of Practice etc., must be brought to the attention of all employees of the school and any other persons who may need to be aware of their contents.

1.9 Review of Policy

This school Health and Safety Policy will be regularly reviewed and amended as necessary. Supplementary Guidance Documents and Codes of Practice will be regularly reviewed and, where appropriate, further guidance notes will be issued relating to particular work activities or as a result of changes in Health and Safety legislation.

CONCLUSION

It is the responsibility of everyone to make these arrangements work to ensure, so far as is reasonably practicable, that working conditions are safe and that the working life of everyone is accident free. Any person noticing a failure to comply with the Health and Safety Policy should immediately report the circumstances to the Headteacher who should then take appropriate action to resolve the situation and notify the LA, as appropriate. Suggestions by any member of staff to improve standards of health and safety are welcomed by the Headteacher.
